Following the call yesterday

We would request the following for your consideration. REference Coal Mine Waste Gas – Methodology

Given the requirement for new power generation infrastructure and seven year period for accreditation that time period be extended to 10 years or rolled over for further 7 years to align with commercial pay pack periods and depreciation of infrastructure assets.

1. Coal Mine Waste CMWG gas be accredited were CMWG is co fired in existing coal fired powerstation
2. CMWG be accredited wer gas is delivered to the gas pipeline and then combusted of converted by industrial or residential user
3. Time period be set for reponses to requestes for guidenance / clarity / ruling on addittionality with respect to the intrepretation of State Regulatory requirement and CFI Act

Warm regards

Andrew Mayo
